John Copple is the CEO/President of Sanborn and has been a sponsor and supporter of NSGIC for many years. He has been an active leader on NSGIC’s Corporate Leadership Council and helped to shape that group as a trusted advisor for NSGIC leadership. John has chaired the CLC in past years and was instrumental in setting up and formalizing the CLC a few years ago. This year, John has gone above and beyond the call of duty. Part way through the year, the CLC chair position was vacant and he volunteered his time in order to help out. In addition, John helped to coordinate the CLC content for the conference and chaired the CLC meetings throughout the year. We would like to recognize his efforts regarding the CLC.
